

How to Change Wallpaper (Ver1.1.x)

1. Connect MP4 Player with Power Adaptor and turn the device on.
2. Connect MP4 Player and PC via Mini-USB Cable. A new USB device dialog will pop out on your PC screen.
3. Download your favorite wallpaper file from official web site. Unzip it and transmit the file "DeskTop.yuv" to the root path of MP4 Player.
4. Unplug Mini-USB Cable and wait for the USB icon to disappear.
5. Press "Stop/Back button" to return to [Main Menu]. Your favorite new wallpaper will automatically replace your previous one.
