

**“Hipper 50/60 -Line-In Version” aims at the bundle business with the major Mobil phone manufactures like Nokia, Sony Ericsson, and Motorola, including all Mp3 and 3G mobile phones.**

### Mobile Cable Compatible

At one of the line will plug into mobile phone’s connector, which varies from different brands, and the other end to the line-in jack residing at the back of the “Hipper 50/60 -Line-in Version”

### Remote Control

Including remote control, easily use it while you listen to the music.

### An Alternative

As “Hipper 50/60 -line-in Version” will cost less than “Hipper 100”; it would certainly offer an alternative with much appealing price for customers. “Hipper 50/60 -Line-in Version” will be only equipped with speaker and the LED function without the OTG device and MP3 decoderm I.C.

### Hi-Fi Stereo sound effect

The “Hipper 60 -Line-in Version” with stereo sound system, the music becomes more gracious. You could pleasurably enjoy the world of music at anytime.

### Enjoy MP3 Everywhere

Enjoy MP3 music by just hooking up any MP3 supported mobile phones through the “Hipper 50/60 -Line-in Version” built-in speaker. No more pressure from your earphones!

### Create the Cozy Atmosphere

The LED lights will change to different colors with the beats of the music. This combination creates the cozy atmosphere for you and your loved ones. It also can serve as a home decor creating the moods of vivid lightings behavior. It’s your ultimate mood generator.
